

## The Emergo Internship Programme

### Scope

The Emergo Internship Programme in investment services is a corporate internship programme aimed at providing training for young financial service professionals with a view to their becoming employed full time in the financial services industry. EIP offers on-the-job training in a broad range of specialties, including corporate finance advisory, investment management, fund administration and accounting, provident fund operation, brokerage and financial research and analysis.

Depending on the time and level of commitment, during their term with Emergo, residents may (inter alia) achieve certification status with the Cyprus Securities and Exchange Commission and complete some or all of the levels of the Chartered Financial Analyst (CFA®) qualification.

### Eligibility

Qualified applicants do not need to have experience in the sector but must possess a keen desire to learn and the willingness to go the extra mile in achieving their goals. Proficiency in English and one other language is a must. We are recruiting both graduates and undergraduates, not necessarily from the finance field for a minimum internship term of 10 weeks. A resident will work temporarily on entry-level operational tasks as well as advisory activities, while receiving training in the financial services sector.

### Terms

Successful candidates will receive remuneration commensurate with their credentials and level of experience and they will have the opportunity to compete for a permanent appointment with the Emergo Group.

### How to Apply

Applications will be accepted from 1 July – 30 September and 1 February – 30 April. Interested candidates should send their resume to [internship@emergowealth.net](mailto:internship@emergowealth.net). Suitable applicants will be invited to attend an interview and complete a written test or a case study assignment as appropriate. The candidate assessment and selection process is usually completed in a maximum of 4 weeks.

### Emergo Wealth

Emergo Wealth is a Cyprus financial services Company. Our job is to provide financial services and advice our clients to invest and manage their hard-earned money safely, securely and responsibly.
