# Key Investor Information

This document provides you with key investor information about the Luctor Investment Fund – Dynamic (LIFD) (hereinafter “the Fund” or “LIFD”). It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the fund. You are advised to read it so you can make an informed decision about whether to invest.

## Luctor Investment Fund – Dynamic (LIFD)

Management Company: Luctor Investments

## Objectives and Investment Policy

**Investment objective** - The investment objective of the sub-fund is to provide long-term capital growth over a long-term investment horizon, through investing in a multi asset class diversified portfolio of high quality cash, fixed income, equities and alternative investments.

**Investment policy** - The manager uses a risk-based approach, endeavoring to construct a diversified portfolio. Extensive diversification is achieved mainly through the use of index-tracking and other liquid Exchange Traded Funds (ETFs), listed and non-listed securities, fixed term deposits and mutual funds selected through a rigorous evaluation and rebalancing process. The choice of assets is guided by capital appreciation, liquidity and income.

**Eligible Financial instruments** - The Fund will be focused investing globally (USA, Europe, Asia) in cash, fixed income, publicly listed securities, Mutual Funds and ETFs.

**Redemption of units** - The investor may redeem units on demand, subject to the Rules of the Fund.

**Benchmark** - The Fund's benchmark is a composite index made up of the MSCI World Index and other asset class specific indices. The composition of the benchmark is based on the strategic asset allocation of the Fund.

**Portfolio transaction costs** - The portfolio transaction costs would reduce the performance of this fund's investment strategy and as such are a material component of its performance. Portfolio transaction, custody and depository costs are paid by the Fund and are additional to charges set out in the Charges section.

## Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Fund does not have guaranteed returns, and previous performance is not a guarantee of future returns. The risk category shown is not guaranteed and may shift over time.
- The lowest category does not entail risk-free investment.
- The higher the risk, the longer the investment horizon recommended.

Below is an outline of other risks substantially associated with the Fund that are not adequately reflected in the risk rating:

**Credit risk:** the risk that the companies in whose securities the Fund is invested might fall into financial difficulties and might no longer be willing or able to honour their commitments towards their debt-holders).

**Counterparty risk:** the risk of a counterparty's bankruptcy leading it to default on payment.

**Liquidity risk:** this risk derives from the degree of liquidity of the markets in which the securities making up the portfolio are traded.

**Operational risk:** The risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

**Inflation risk:** This risk is associated with a reduction in the Fund's performance at fixed prices because of a rise in the general consumer price index.

**Interest rate risk:** The risk that the value of the Fund's investments might decrease if interest rates increase.

**Risks of Leverage:** The Fund may borrow funds and employ financial instruments and techniques with an embedded leverage effect. The borrowing of funds and use of leverage by the Fund will magnify increases or decreases in the Fund's Net Asset Value. No assurance may be given that secured or unsecured debt financing will be available on terms that the Manager considers acceptable, nor that the use of leveraged financial instruments and techniques will not generate losses in excess of the amount invested or committed.

## Charges

### One-off charges

Entry charge	0%
Exit charge	0%

This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).

### Charges taken from the fund over the year

Safekeeping, asset management and administration fees	1% of AUM
Depository fees	0.1% of AUM

### Charges taken under certain conditions

Performance fee	0% (no performance fee will be charged)
-----------------	---

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit fees are the maximum amount that can be deducted from your capital. In some cases, you may actually pay less. Current fees have been estimated based on the expected overall cost for the Fund and could vary from year to year.

The ongoing charges figure excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in other collective investment undertaking

## Past Performance

- Past performance diagrams are based on back-testing.
- Those returns include the implicit costs (management fee).
- All figures have been computed in Euro.
- Past performance does not provide any guidance to future performance.
- The Fund was launched in 2015.
